#### AI Voice Assistant for Elderly Care

Developed an Arabic voice assistant prototype to support elderly users in managing daily activities. The system provides medication and appointment reminders, voice interaction in Jordanian Arabic, and personalized assistance. Implemented backend functionality using Python and designed an interactive web-based user interface using HTML, CSS, and JavaScript. This project enhanced my skills in software development, user experience design, problem solving, and teamwork.

#### Coffee Shop Website

- Designed and developed a responsive coffee shop website using HTML, CSS, and JavaScript.
- Created an interactive and user-friendly interface.
- Implemented menu sections, navigation, animations, and responsive layouts.
